

Request For Qualifications

Florence Township Trustees request statements of qualifications from Design-Build Construction Firms to reconstruct the Florence township fire hall that was destroyed by fire in May of 2015.

The project will include evaluation of several sites to determine most viable location, to assist in design, and to construct a new fire hall of approximately 12,000 to 15,000 square feet.

The structure will be intended to provide housing for all Fire Department and Emergency response equipment and act as a base of operation for fire department personnel. The Township will also be evaluating design and cost options for additional space that will be considered as future office and community use space. The Design Builder will also be asked to assist in pursuing grant options and additional outside funding sources for the project.

This project will be subject to Ohio Prevailing Wage Rates per Ohio Revised Code, 4115.

Interested firms will find complete project and Request for Qualification details available at The Williams Co Engineers web page @ www.wmscoengineer.com/bidprojects. Qualifications to be submitted to Florence Township Trustees at florence@williams-net.com and due April 5th 2016 by 6:pm
